THE REVIEW

Bow Island

From our own Correspondent

Mrs. S. McDougal returned from Calgary where she has been for an extended visit

Mr. Lawson of Rock Lake School is away for a vacation

Perry Salisbury appeared on Friday afternoon at 4 p.m. before Peter Lamarch and G.H. Johnson. He was charged with assaulting Jules Lavine on July 26th. Salisbury pleaded not guilty. Evidence was then given by Lavine relative to the assault; this evidence was corroborated by Alex Guthrie, and Lavine's son after hearing the evidence on both sides their Worships fined the accused \$10.00 and costs and further bound the accused over in the sum of \$200.00 and ten shillings of \$100.00 each \$500.00 to keep the peace for 12 months.

This was on account of Salisbury threatening Lavine, if Lavine had him pulled for the assault.

Mr. and Mrs. W. G. Whitney, and Mr. and Mrs. A. J. Whitney of Lethbridge spent the weekend with their sister Mrs. F. J. Henderson

Mr. F. J. Henderson and E. Wilmot, on a trip up the North Country looking around to see what that country offers

Miss, Tena Schonert left on the early morning train last Thursday for New York where she intends to take up the Nursing profession in one of the large Hospitals

We wish her the very best of good fortune, and hope she won't forget old friends but will drop a line now and then, to let us know, how she is conquering the many problems that will confront her, and perseveringly climbing step by step the golden ladder that leads to Honour and Fame in a noble profession

The Women's Institute will hold a meeting at the Rest Room, on the 16th August and hope everyone will attend

POLICE NEWS

Arthur Drapeau, who had a barber shop in the Cote Rooming House, was arrested by Constable Bradner A.P.P. on Friday evening the 1st. inst. he was charged with a serious offence against a young girl, Mabel Ellis, age 9 years. The accused appeared at 7 p.m. before G. H. Johnston and Peter Lamarch J.P. for a preliminary hearing, the hearing was not open to the Public from the evidence given by Mrs. Ellis and the girl Mabel, their Worships considered the evidence sufficient to send the case to a higher Court of competent jurisdiction. Constable Bradner escorted the prisoner to the Provincial Jail at Lethbridge on the mid-night train

Arthur Drapeau was charged with a second offence similar to the first. Mrs. Hart being the informant, the accused being charged with indecent assault against her two daughters, Elizabeth and Agnes Hart age 11 and 13 years. The evidence disclosed in this case was not sufficient, as the accused had not laid hands on the girls as in the first case. (This case was dismissed.

Medicine Hat medical men have done the right thing with the liquor business. They have sent back all their prescription blanks and refuse any longer to act as bartenders for the provincial government in their district. It would not be surprising if the Medicine Hat example were followed by the doctors generally all over the Province

Harvest Labour in Manitoba and Saskatchewan

Owing to the crop failure, the Alberta Government has made arrangements whereby bona fide farmers who wish to do so, may obtain transportation at 1 cent per mile to certain points in Manitoba and Saskatchewan, for the purpose of getting harvest work. This offer is open until August the 30th.

Apply to, E. Harding at the Municipal District Office, Bow Island

Mr. C. H. Bell and John Sampson went last Wednesday to Virden, Manitoba for the Harvest Season

Good Roads A Necessity

Canada, and especially that greater and new Canada comprised within the three Prairie Provinces of the West, have numerous problems to work out in order to promote the development of our great natural resources, encourage immigration and permanent settlement in the prairie, ensure the prosperity and comfort of the people, and attract visitors from all parts of the world. To solve these many problems will require patience, courage and capacity on the part of Governments, municipalities and people, as well as large annual expenditures of money.

It is important, therefore, that all works inaugurated should, as far as possible, be of a permanent character, well planned, scientifically constructed, and their upkeep and efficiency maintained. In this article it is not the intention to deal with the one of these many and diversified problems. Some people may think the creation of good roads is not the most pressing of Western problems, but few, if any, will deny its importance.

During the past half century Canada has been busy building railways—an enormous and burdensome task in view of the magnificent stretches of territory that had to be covered, with great barren spots like the north shore of Lake Superior and the mountains of British Columbia to be bridged, with many and great rivers to be spanned, and with but a small population to bear the expense and provide traffic for the completed lines. It is not to be denied that Canada, therefore, that in this Dominion less attention and money has been devoted to good road building than is true of other countries.

With the advent of the automobile, and its general adoption for both passenger and freight carrying purposes within the past two decades, a revolution has been wrought in the primary means of transport, and what was regarded as a good road a few years ago will not, under modern conditions of automobile traffic, stand the strain. The time has come, therefore, when the people of Western Canada must face the necessity and the expenditure involved in abandoning the old dirt roads and creating permanent highways. To continue spending large sums of money on dirt roads is now a wasteful procedure, because the cost of upkeep in a few years' time, if it does not exceed, the original cost, and it has not maintained the whole expenditure is waste.

The magnitude of the task may be judged from a few Saskatchewan figures. There are over 200,000 miles of road in that Province. A Government survey of the Province has established the fact that there is little stone available for crushing to be used as macadam; suitable sand and gravel deposits are few and far removed in most cases from where it would be required in road construction. On the other hand, Saskatchewan has now over 100,000 automobiles, and the number is increasing every week, fully two-thirds of which are owned by farmers. The Provincial revenue from license fees

totals from \$750,000 to one million dollars a year. The situation in Saskatchewan is progressively true of the other Western Provinces.

The automobile is no longer a luxury but a necessity, but its value to the farming community of the West depends largely on good roads. The old-style dirt road will not suffice. The roads are not only a necessity, while in winter, with our comparatively light fall of rain, dry snow, the roads generally would be swept clean by the winds.

Then there is the saving of time, gasoline consumption, wear and tear which comes with good roads. The problem of getting to market for supplies and repairs, and from the farm to market with produce, is essentially a farmer's problem. In many cases his success in solving it determines the amount of his year's profits. A large motor truck manufacturing concern in the United States recently made a series of tests to determine just how much gasoline and time was wasted during a trip over unimproved highways. A twelve truck started under capacity load. It traveled ten miles—about the distance "to town"—and back again. It was over an average country road with dirt, sand and gravel predominating. During this ten-mile trip, two gallons and one quart of gasoline were consumed. But in covering the same distance over hard-surfaced roads, the motor required only one gallon and one quart, a saving of almost a gallon. It also took the truck forty-two minutes longer to make the trip over an occasional dirt road.

Multiply this saving by the number of trips made during a season, and it is easy to see how good roads contribute to the farmer's bank balance. It ought to be sufficient to convert every Western Canadian into an enthusiastic good roads booster.

Goodbye to Asthma.—Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their heart for escape as from any tyrant. Never do they know when an attack may come and they know that to struggle against it is vain. While Dr. J. B. Kellogg's Asthma Remedy at hand, however, they can say goodbye to asthma and enjoy life again. It helps at once.

Beast Of Mystery

For London Zoo

Combines Traits of the Horse, Giraffe and Zebra

London.—Europe is to have a real live okapi for its very own. The mysterious animal, the okapi, which combines the traits of the horse, the giraffe and the zebra, is on its way to London zoo.

The first European to get a glimpse of the elusive creature is said to have been Mr. Jeannot, a young Swiss in the service of the Congo State, who was supervising road-making when he shot the animal, but only being wounded, the okapi made its escape back into the Congo forest.

St. Harry Johnston, administrator of the Uganda protectorate, devoted much time to the search for it. He failed, but he reports, at least, that the atmosphere was unbearable, owing to the swamps and the smell of decaying animal and vegetable matter in the heart of the tropics.

The expedition had to turn back without the okapi. One, however, has been recently secured alive, and it is hoped that it will be seen in Great Britain shortly.

"Pat, here's the dollar I borrowed of ye last week."

"Bedad, Mike, I'd forgot all about it."

"Och, why the devil didn't ye say so?"

It is a good thing for some people who live in the necessities of life do not include brains.

The Iron Road In The Wilderness

Another Example of Eastern Concessions as Invaded by Geographical Ideas

In laying the last tie in its railway link connecting Jerusalem and Suez, the British Government admittedly has, of course, not exhausted the possibilities of obtaining speedy passage over this historic wilderness. When an aeroplane undertakes to soar from Mecca to the isthmus, as will inevitably some day be the case, the reckoning on the days which would be required to make the journey, yet even the time now required—approximately five days—is shorter than was ever hoped for in the days when caravans alone plied the desert fastnesses of Sinai. There is another example of eastern conservatism as invaded by occidental ideas—a land of natural barriers, difficult to surmount in the twentieth century as in the time of Moses, has been the latter-day Araby and his tamed steed, Steam, before yielding to the demands of progress.

BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentery, cholera infantum and stomach trouble are the most common causes of death. The danger is not at hand to give children the above-named troubles, but frequently means that the child is passed beyond aid. Baby's Own Tablets should always be kept in the house where there are young children. They are a powerful and safe medicine which prevent stomach and bowel troubles, or if the trouble comes suddenly they promptly relieve it. The Tablets will relieve the baby. The Tablets will relieve the mother. Write for a free trial mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ontario, an enthusiastic good roads booster.

Women Work On Nets

Receive 50 Cents for Each Box Spread on Road

Portland, Maine.—It would appear that every line of labor is open to women. They are now on the warves in this city as girl-net-spoolers. Each day, after a trip to the fishing grounds, the girls' nets have to be dried, and these reels are so arranged that the nets lie across them and are wound up similar to a thread on a spool. One reel will hold a great many nets and are ready for spools in 24 hours. Women are now doing this sort of work. Many of them are wives of local fishermen. They receive 50 cents for each box of gutline and gutline spins on the reel. The work averages from \$4 to \$4.50 a day.

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

Parm Loans in Saskatchewan.—Farmers in Saskatchewan loaned in all parts of the province have obtained \$250,000 by the Saskatchewan Farm Loans Board since it started operations in the summer of 1919. In these loans more than 1,500 farmers, many living in newly settled districts where the mortgage settlements are sometimes reluctant to make loans, have participated. The money derived from the loans is being used for breaking land, erecting buildings, and securing livestock.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-worm infant.

Will Resume Trade With Germany

Canadian Trade Mission States That License Has Been Issued.

Ottawa.—Trade with Germany and German-Austria is now allowed, and a cablegram recently received from the Canadian Trade Mission in London, states that a license permitting trade with the enemy has been issued by Great Britain and that all goods not on the conservation list are allowed to be shipped without individual export licenses.

Information comes at the same time from the Trade Commission at Washington, to the effect that a general enemy trade license is being issued in the United States Government, enabling "all persons to communicate and trade with persons residing in Germany." Hungary and Bolshevik Russia are not included in the permission.

Water on the brain is seldom due to a thirst for knowledge.

W. N. U. 1275

City Of Orphans Is Being Founded

Will Be Inhabited by Syrian Children Left Destitute by Turkish Massacres

New York.—The City of Orphans is the name of a town in Syria which will be inhabited by the Syrian children left destitute by the Turkish massacres and the ravages of war. Already the children are being brought together in temporary orphanages by the American committee for relief in the Near East.

Bayard Dodge, who recently returned from six years of relief work in Syria, said that even if the best of the wealthiest government in the world took over Syria, it could not care for the orphans properly, since this is not so much a matter of relief as of reconstruction.

"The true horror of the famine in Syria," he said, "has been the moral breakdown. The horror of having thousands of neglected children growing up without homes or education, the victims of a demoralized environment, is a void to compare with the famine itself. In the small area of Syria for which I compiled statistics there are 249 villages, with 4,364 orphans and 9,668 children with only one parent."

Mr. Dodge outlined the plan of Dr. Stanley White and Maj. James H. Knicker, who have been in charge of local relief work by the Red Cross and the Near East committee. They intend to train a number of native children as farmers, mechanics, clerks, artisans, and industrial laborers, thus forming a nucleus for further educational work in the generation upon which will fall the responsibility of creating a new nation.

As far as possible the children will be trained as Syrians. The American influence will be strong enough to develop efficient management and high ideals, but not so strong as to breed dissimulation or lack of patriotism. The committee in Beirut hopes to limit the number of children to 5,000, to group them into small families with self-government, to teach them useful trades, and to bring representatives of different sects together.

Turned to Account.

He (savagely): "Sir, I understand you said I had a face that would stop a clock."

He (calmly): "So I did. Any well-regulated clock would pause and hold up its hands in admiration at the sight of your lovely face."

A warship goes on a whaling voyage when it starts out to whip somebody.

Minard's Liniment Cures Garget In Cows.

Rights Of Provinces

Three Important Test Cases Are Before Privy Council.

London.—Three petitions for leave to appeal concerning important questions whether the common law of Manitoba, Saskatchewan and Ontario are intra vires of the provinces were presented, and the Privy Council opened their addresses. Lord Haldane intimated on behalf of the privy council that their lordships were ready to grant relief and expressed the desire that all three appeals be consolidated and only one set of arguments be heard. Counsel promised to arrange this.

Always.

"Edith is one of those girls whose interest in a man is governed by his wealth."

See; the greater the principal the greater the interest?

With some men swearing off it is a continuous performance.

CURES A COLD QUICK AS WINK!

Easy to Rolling Off a Log to Stop a Cough or Cold With "CATARRHOZONE"

No more medicine for the stomach—that isn't where your cold is lodged. Just breathe in Catarrhozone. Catarrhozone—a soothing, healing, medicinal that acts instantly. Colds, sore throat and catarrh fairly flee before Catarrhozone.

Every spot that is congested is healed, irritation is soothed away, inflamed membranes are cooled down, and all symptoms of cold and catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhozone. Cures of dangerous substitutes. Beware of cheap imitations. Catarrhozone. All dealers sell Catarrhozone. Large size, for lasts two months, price \$1.00; small size, 50c; sample size, 25c.

FOR the Gillette owner, life is one long holiday from stropping and honing. It is a round of daily luxurious shaves. The shaving quality of the hard-tempered, keen and lasting Gillette Blade is a never failing source of satisfaction.

You, who are planning a vacation, should include one pleasure you can enjoy twelve months each year—buy a Gillette Safety Razor. Free your holiday from strops and honers.

The new Kit Set—the Pocket Edition Gillette Safety Razor—in a leatherette roll case, complete with twelve double-edged blades and a mirror, takes only a few inches of space in your kit.

Remember how the Gillette was the choice of the soldiers of all the Allied armies. You will need a Gillette to remove your open-air growth of beard.

THE PRICE IS \$5.00

Clear the Skin

A beautiful complexion is the outward mark of good blood and a healthy body. When the stomach, liver and blood are in good order, the skin is clear and lovely. Unusually blotches, pimples, eruptions and sallowness show the need of Beecham's Pills to stimulate and regulate the vital organs and improve the circulation. Good health and better looks soon follow the use of

BEECHAM'S PILLS
are worth a guinea a box

Sold everywhere in Canada and U.S. America. In boxes, 25 cents.

Work On Stockyards

Alberta Company to Spend \$300,000 on Yards at Calgary.

J. M. Cameron, president of the Alberta Stockyards company, has announced that the company has started improvements in the yards, and on the erection of a modern office building, and will spend this year between \$250,000 and \$300,000.

The yards will be extended and new pens erected, and all this work done will be strictly modern and up-to-date. The yards will be paved and sewerage put in, and the older portion of the yards will be modernized as far as possible.

TIGHT MONEY PINCHING MANY

Thousands more are being squeezed by aching cramps that can be cured quickly with Putnam's Corn Expectorant. Joining free from cramps, Putnam's is painless. Used successfully for fifty years. Use no other 25c at all dealers.

Diplomacy

This story is credited to John Burroughs: "The Germans are the trickiest people in the world. A German at a dinner party took in a lady whose name he didn't catch. During the fish course he saw a man who had showed him up the week before in a crooked business deal, and he muttered to the lady, ferociously: 'Do you see that man to the left of the epergne? Well, if there's one man on earth I hate, it's him.'"

"Why," said the lady, he's my husband."

"Yes, of course," said the German, "that's why I hate him."

Investigate Arrest of Hon. W. Scott

Ottawa.—Sir Robert Borden, it is understood, is communicating with the British embassy in Washington requesting that enquiry be held into the arrest of Hon. Walter Scott, ex-minister of Saskatchewan, by a United States Immigration official. Sir Scott has protested to the prime minister against the treatment he received.

A Million Dollar Farming Connection

The Noble Foundation, the name under which the concern of which C. S. Noble, the celebrated Alberta wheat grower, is the head, is now a million dollar corporation, its capital having been increased from \$750,000 to this figure. This company is farming between twenty and thirty thousand acres in Southern Alberta, growing all kinds of grain, and this year has about twelve thousand acres in crop.

Minist's Liniment Cures Distemper.

To Increase Wireless

United States Likely to Establish Radio Stations to Relieve Congestion.

Washington.—The request of Secretary Daniels that congress organize powerful naval radio stations for commercial messages seemed to meet general approval in the house as the secretary's letter was referred to the naval affairs committee. Chairman Butler stated he believed it would prove to be the only way of reducing congestion on the cables.

Two miners went on a fishing expedition. But they were novices on the lake. "How are ye gettin' on, Jack?" asked one.

"Och, simply rotten!" was the reply. "I don't believe my blounn's worms' trying."

Many people seem to think that romance spells reform.

CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties. Mrs. M. HUMMES, Box 42 Windsor, Ont.

If tea or coffee disagrees the sure way out is to drink

BOW ISLAND NORTH

From our own Correspondent

We read a very elaborate news item
in the Nanton News, dealing on the
correct method of dry farming in the
Bow Island North District, really it
is most edifying and tells of the
wonderful crops in this neighborhood,
finishing up with the adage that there
is plenty of moisture there, we would
like to discover some of that com-
modity within a 100 feet of earth's
surface.

We hear the pound fees have
advanced to 75 cents per head now,
and considering there is nothing is
fed to stock impounded in any of
the surrounding pounds, we would
certainly welcome open pounds, they
are a source of continual annoyance,
and hard feeling between close
neighbours, and harbourous contempt
for the owners thereof. When half
a dozen head of horses walk through
a fence into a man's wheat, it natu-
rally makes him sore, but when that
wheat is the "has been" class, and the
horses owned by a fine fence
neighbour, we consider it pretty poor
judgement on the impounder to drive
those ponies, three miles to the pound,
when advising the owner would keep
his horses at home, and save himself
a saddle ride of three times the dis-
tance and beside times are hard now,
and will be harder later on, and any
additional expenditures from the
H.C.L. keeps a man guessing.

If you have any extra cash these
days, take a tip from father, and
subscribe to our local sheet it isn't
much, its circulation is really
remarkable. Readers extending from
old England clean to the Pacific.
Some field eh?

Mr. Wm. Hambleton returned from
his ranch at Bow River last Sunday
and reports that the ranchmen there
are going to trail their cattle to the
feed for winter quarters. There is
fair grazing at present, but no hay.
Mr. Kenny Hambleton is riding for
Chas. Webb a neighbouring stockman
in their district. In meanwhile
William intends cutting and putting
up a few loads of feed, from the
wheat fields on their farm near Good
Cheer.

A splendid rain fell last week, saving
the bacon of a few from complete
crop failure, on the other hand curtailing
the harvesting operations of those
who had started cutting their grain.
It will all depend upon the rainfall
from now on, as to whether as large
an acreage will be sown next spring
as last.

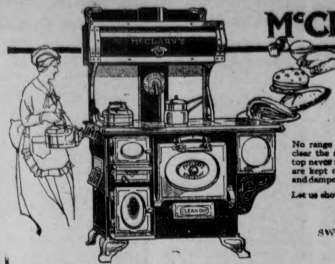

Mr. William Hambleton tells us
that the antelopes on the range along
the Bow River, have increased sur-
prisingly in the last year

Mrs. F. O. Warner and family
motored over to the river from the
farm, on Friday. They are coming
back to spend Sunday with Mr.
Warner who is employed building a
road into the L.J. Ranch

We were glad to welcome home
another Veteran of the Great War,
in the person of Mr. Ted Rea. Mr. Rea
intends taking another whirl at the
farming gamble next year in this
district

Seven Persons.

Lots of rain which everyone
was very glad to see, but owing to
3 years crop failure there is
nothing stirring, and the district
farmers are just getting out,
the stores are quiet

McClary's Kootenay

TOP, bottom and all four sides
of the Kootenay oven are
evenly heated. That is why it is so
famous as a dependable baker.
There is a thermometer, too, to
tell whether the heat is right or not.

No range is quite so easily managed. Duplex grates
clear the ashes at a single turn. Burned cooking-
top never needs blacking. Nickeled steel oven walls
are kept clean with a damp cloth. Well-fitted joints
and dampers hold the fire—and the oven heat—for hours.
Let us show you the Kootenay.

BRITISH FARMERS GIFT TO FRANCE.

Have sent consignment of livestock
to peasants.

British farmers have just sent
through the medium of the
Agriculture Relief Committee an im-
portant consignment of livestock to
peasants returning to their farms in
France in the neighbourhood of the
battle zone.

The gift comprises 37 pedigree dairy
short-horn bulls 28 heifers and 100
head of poultry which are to be
distributed in the Department of the
Somme. Further consignments of
cattle are about to be sent to France,
and latter on it is intended to send
sheep and pigs of suitable breeds

If you need a loan on your
farm, see George Lomas of
Burdett.

BURDETT

Nick Brundale, Sam Fletcher and family Frank and Mrs. Bishop J. F. Hamilton, Tony Rygg and wife Mrs. Maurice Rygg went for a trip to Ronalene last Saturday and had a fine picnic, while there they inspected the Experimental Farm.

Mr. George Carr of Burdett Alta, spent the weekend visiting Mr. and Mrs. J. K. Alexandra 814 2nd. Ave. S. Lethbridge. Previous to going to Burdett, Mr. Carr was employed by the Good Co. Ltd. of Lethbridge.

Mr. N. B. Good and Mr. Archie Murchill of Lethbridge, motored to Burdett last Wednesday returning on Thursday morning.

Art, Lindquist and Hengel Fraas have returned from the ranch of W. H. Perry on the Saskatchewan River north of Burdett, having finished cutting his wheat, they claim Mr. Perry will have a very fair yield.

Bow Island North

The river has risen to its old magnitude and is still rising, owing to the enormous amount of rain falling in the North West part of the province.

Mr. Al. Chisholm is back from his journey North and speaks of much rain having fallen during his visit particularly in the vicinity of Lacombe.

Mr. P. O. Warner and his youngest son have been busy engaged grading Bruce Marden's new road. They hope to be thru within a day or two time.

Mr. W. Wm. Hamilton was down helping Slim Marden erect a ship not barn on Monday. Mr. Hamilton is busy cutting his crop for feed which he intends taking up to the ranch on Bow River.

We hear Jack Briggeman is engaged fighting forest fires in the vicinity of his home in the Arrow Lake District B. C.

Mr. Bruce Marden reports a promising little crop of calves just now; he is at present sending some fall rye for fall pasturage for his cows, and feed next summer.

Most of our farmers are cutting their crops with the header attachments on their binders this week, these contrivances are proving a great boon to them, these short straw years, and they claim to be O. K. too.

We have been wondering whether Bow Island is on the Prince's visiting list, during his coming trip thro our Dominion. We feel he will miss much if he does not inspect the Banner Wheat Centre of the world.

A young akunt was seen on the road between A'dairs and Good Creek school house last Saturday evening, not common in these parts.

**Oil Well Made This
Man A Millionaire,
But He Won't Try
To Quit Job.**

If you were a poor man and had been kept on the jump feeding coal into the capacious maw of a U. S. S. Inspector and somebody drilled an oil well on your ranch in Texas and you suddenly had an income of \$480,000—what would you do? E. L. Perkins, stoker on the giant transport to witness this very thing happened, has two years and five months to serve yet and he says he is not going to seek his discharge. When he is out of the navy he is going to try and do good with his money, he says, and as the oil well is increasing its output it is believed that soon his income will be a million dollars.
